SHORT COAT	MEDIUM COAT	LONG COAT	EXPLANATORY NOTES
<p style="text-align: center;">Black Cherry SUPREME</p> <p>1. Wet the coat with lukewarm water and apply the Black Cherry PEK. Use a natural brush, (ex. Boar Hair Brush), and brush in the natural grain of the hair. Wrap a towel around and leave for about 10 minutes. The short coated dogs really need this treat! \</p> <p>2. Put the dog in the bath and rinse. Proceed with a mix of 1:4 of water and Black Cherry shampoo and wash well , moving in the grain of the coat. Rinse after about 3 minutes.</p> <p>3. Apply mix of half water and half Black Cherry PEK, massage gently and rinse well. Proceed with drying and brushing with a natural brush.</p>	<p style="text-align: center;">Pink Grapefruit INTENSE</p> <p>1. Wet the coat with lukewarm water and apply the Pink Grapefruit PEK. It might be easier in case of lots of hair to mix the PEK with water, in order to reach the skin. Wrap a towel and leave the coat to absorb for about 10 min.</p> <p>2. Put the dog in the bath and rinse. Wash with the Pink Grapefruit shampoo, rate 1:4. Massage well and rinse after 3 minutes.</p> <p>3. Apply half water and half Pink Grapefruit PEK, comb through the coat and rinse well. Proceed with drying and lifting the hair with the brush, so a wonderful volume will be created.</p>	<p style="text-align: center;">Maracuja EXTREME</p> <p>1. Wet the coat with lukewarm water and apply Maracuja PEK. Comb gently through, and wrap a towel around, for 5-10 min.</p> <p>2. Put the dog in the bath and rinse. Apply the Maracuja shampoo with 1:4 water and wash gently, massage through and rinse well after 3 minutes.</p> <p>3. Apply mix half water, half Maracuja PEK and massage gently in the coat from the skin to the points of the hair. Rinse well and dry brushing gently.</p>	<p>1. We use the PEK as a mask WHEN the hair is damaged or very dry and also when the hair is tangled.</p> <p>3. When considered necessary, you can mix the final PEK with K101 or K100, Mink Oil and /or the Reinforce.</p>

<p style="text-align: center;">ORANGE</p> <p style="text-align: center;">Shedding or poor coat SUBLIME</p>	<p style="text-align: center;">GINGER & ELDERBERRY</p> <p style="text-align: center;">Delicate skin PURIFYING ACTION</p>	<p style="text-align: center;">MINT</p> <p style="text-align: center;">Invigorating CONTROL</p>	<p style="text-align: center;">EXPLANATORY NOTES</p>
<p>1. Mix PEK orange with warm water and apply on the coat. Comb with a wide Coatking®. Leave in the coat for 10 minutes.</p> <p>2. Put the dog in the bath. Rinse, and apply Orange shampoo, mixed 1:4 with water. Massage and rinse after 3 minutes.</p> <p>3. Apply orange PEK and rub well in the coat. Give a nice massage for 3 minutes and rinse well. Proceed with drying.</p>	<p>1. Use the G&E PEK direct on the slightly wet skin. Wrap the animal in a towel, so the body becomes nice and warm and leave it for about 10 minutes.</p> <p>2. Put the animal in the bath and rinse off the G&E PEK. Bathe it with the G&E shampoo, mixed 1:4 water. Massage gently in the coat for about 3 minutes then rinse.</p> <p>3. Take the G&E PEK, and apply on the coat. It's very important that you make sure that the skin is well covered. Comb carefully through and rinse after 3 minutes. Proceed with drying.</p>	<p>1. To reinvigorate, mix the Mint PEK with a little water and apply on the coat. Wrap a towel around and leave on for about 10 minutes. In the case of parasites, apply the Mint PEK pure on a slightly wet coat and leave a little longer. The force of the natural mint is not loved by parasites hence it works great as an anti-parasite.</p> <p>2. Put the dog in the bath and rinse. Apply the Mint shampoo, mixed 1:4 water and wash well for about 3 minutes. Rinse thoroughly.</p> <p>3. Apply the Mint PEK to the coat, leave it for 3 minutes and comb with a normal comb as well as you can. Rinse well and proceed with drying.</p> <p>Note: The mint refreshes, so be careful to not bathe the animal in windy surroundings. They might cool off too much!!</p>	<p>1. Using the PEK before washing, is like giving a mask, which will help the skin and coat to be super well taken care off. When the PEK becomes warm on the body, its nourishing functions double!</p> <p>3. When considered necessary, you can add K101, or K100, or Mink oil or / and Reinforce to the final application of the PEK.</p>
